Cory Flynn

Looking to make tangible contributions to an innovative project while fostering new relationships in the software space and furthering my development skills. I aim to take on a leadership role to showcase my strong interpersonal skills and, to that end, bolster the productivity of those around me.

EXPERIENCE

Blockchain Center, Remote — *Software Engineer*

NOV 2020 - APR 2022

Assist in leading a team of 10+ developers in creating and maintaining multiple different web3 applications spanning from NFT markets, DEX's, DeFi projects, and Oracles. Provide insight on important or innovative features that would improve the product. Determine the most efficient course of action in the development cycle to ensure notable weekly updates, while keeping team focus on the final product vision. Maintain and assign tickets via github and review pull requests to ensure code is both optimal and clean. Mentor new team members in learning our tech stack.

MarqMetrix, Seattle — *Full Stack Software Intern*

MAY 2019 - AUG 2019

Collaborate to develop a remote application for complex pharmaceutical devices with the goal being usability for those with common knowledge. Lead front-end development rewriting initial prototype to use React Redux. Designed an eye-catching user interface while emphasizing important application features. Revamp data visualization using the Plotly.js library to display fully manipulable 3-D data graphs. Write Python API to send commands to device.

EDUCATION

University of Colorado, Boulder — *B.A. Computer Science*

AUG 2016 - MAY 2020

Minor in Mathematics
Minor in Atmospheric and Oceanic Sciences

Amazon Web Services — *AWS Cloud Practitioner*

EXP. OCT 2023

SKILLS

React | Node | C/C++ | Python
Redux | Web3.js | Typescript
BabylonJS | AWS | Moralis
Solana Anchor | D3.js
Hardhat | IPFS | Git
Cypress | Jest | Mocha

PROJECTS

Automated Market Maker
Crypto oriented trading bot written in Cython using Hummingbot.io

CyberShrooms.org
Solana based NFT project using Metaplex backend and BabylonJS frontend

Zap Oracle SDK
a javascript SDK used to interact with Zap Protocol's ethereum oracles

Zap NFT Marketplace
design and build UI; set up blockchain data indexing solution on Moralis. Make decisions on necessary features

OpenDoors.la
develop a media sharing and social media platform based around music.
